Frontend developer

Motivated and self-taught Front End Developer with expertise in HTML, CSS, and JavaScript, focused on creating seamless and responsive user experiences. Through hands-on projects, I have developed strong skills in interactive web development, cross-browser compatibility, and responsive design. Proficient in modern technologies including RESTful APIs, Git, React, and CSS preprocessors, I have successfully led a project that increased user engagement by 20% through the development of a fully responsive e-commerce website. Passionate about collaborative environments, I am eager to contribute and expand my knowledge in innovative web development settings.
